# B L2099, Sgt. Josef František, No. 303 (Polish) Squadron, RAF Northolt, United Kingdom, September 1940

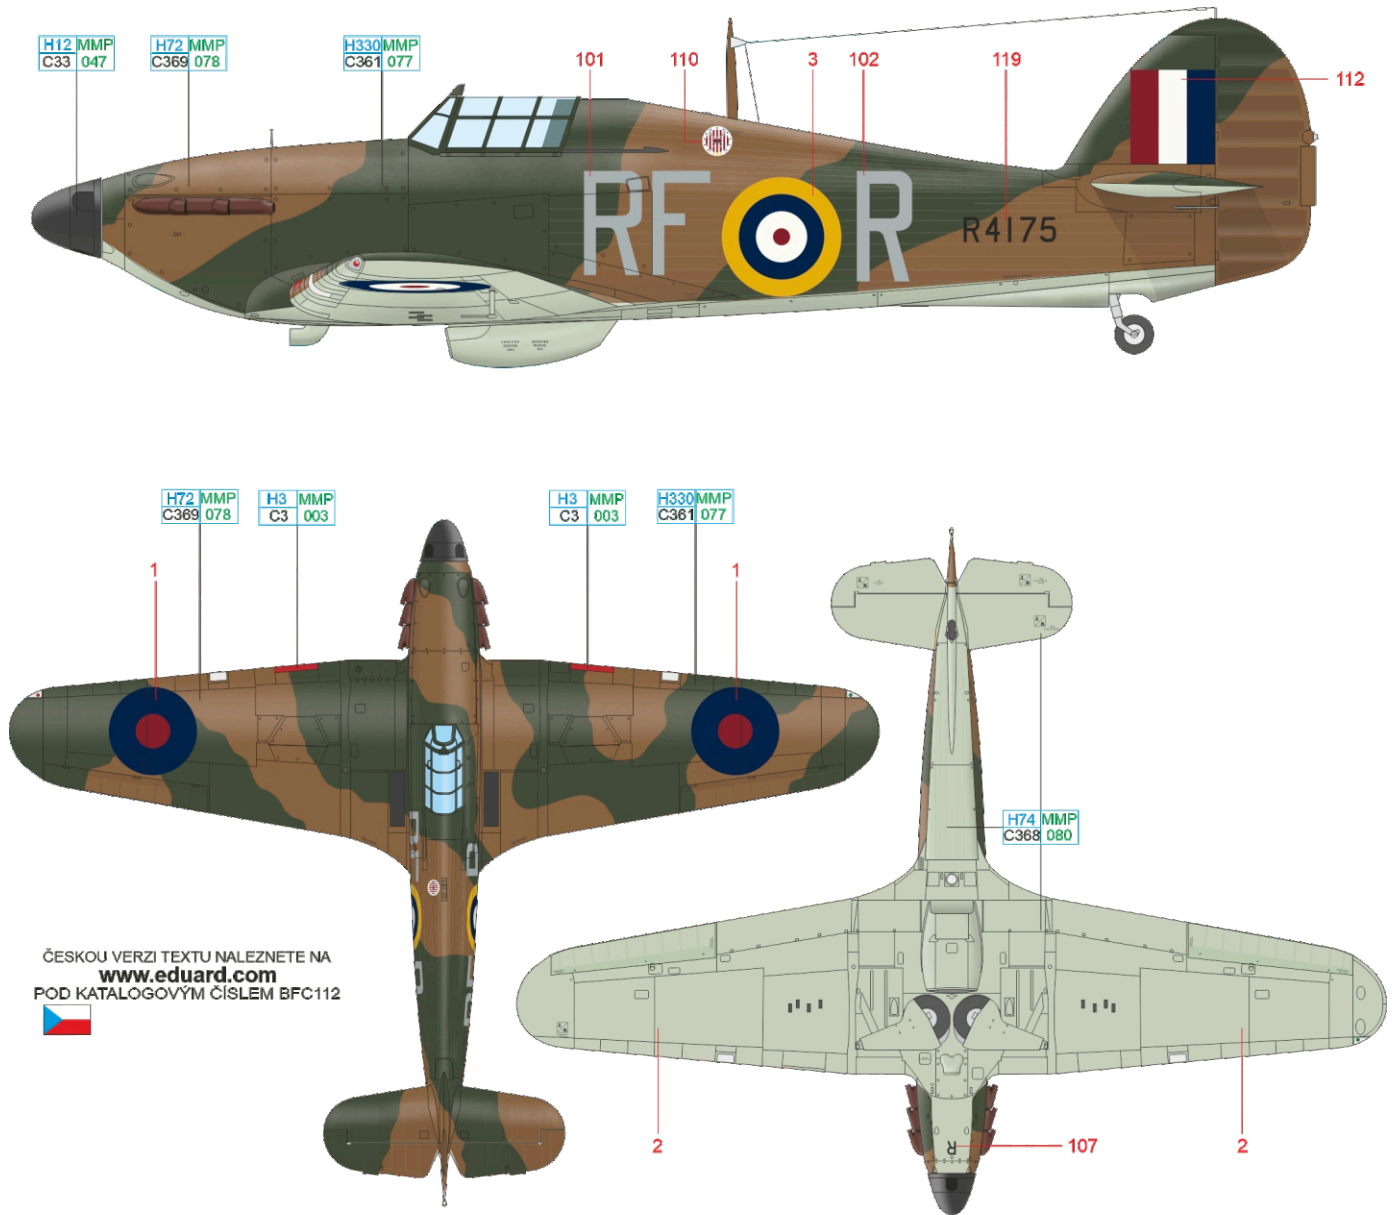

Another Hurricane Sgt. František was flying during his time with No. 303 (Polish) Squadron was this aircraft from the early production batch, but with stressed-skin metal wing already fitted. Josef František flew this one on four missions, but he managed to score only once. It happened on September 30, 1940, when flying this Hurricane for the last time. His victim was one Bf 109E, another one was damaged. English commander of No. 303 (Polish) Squadron S/Ldr Ronald Gustave Kellert also flew this Hurricane several times.

**C** R4175, Sgt. Josef František, No. 303 (Polish) Squadron, RAF Northolt, United Kingdom,  
September – October 1940

Probably the most famous František's Hurricane was the one coded RF-R. The Czechoslovak fighter ace scored a total of eight kills flying it (on September 3 one Bf109E, on September 5 one Ju 88 and one Bf109E, on September 6 one Bf109E, on September 26 two He 111 and on September 27 one Bf110 and one Bf109E). However, this Hurricane became František's fate, as he crashed it on October 8, 1940 and was killed.
